FRIDAY MORNING, OCT. 12, 1860. THE OCTOBER ELECTIONS.

Republican Triumph Overwhelming. A FORETASTE OF NOVEMBER. The returns received yesterday from Ohio, Pennsylvania and Indiana, only render

more certain the decisive triumph of the Republican cause in those States. Each successive report swells the Republican majorities. PENNSYLVARIA gives from twenty to thirty thousand majority; Outo as much; INDIANA from fen to twelve thousand. All three States elect Republican Legislatures; giving us two additional U. S. Senators. Of the lifty-seven Representatives elect, the Republicans have thirty, and the Democrats seventeen. Never was a more signal victory

It is but a foretaste, however, of next month's contest and triumph. Lincoln and Liberty will sweep the field by me. jorities largely increased over those obtained on Theaday. Let every Republican in Wisconsin emulate the glorious achievements of their brethren in Pennsylvania, Ohio, and Indiana, and resolve to place the Badger State among the highest on the roll of FREEDOM. Let our determination be to give LINCOLN and HAMLIN twenty thousand majority, and to sand an unbroken Republican delegation to the next Congress.

Eatly at the Wigwam!

A Republican gathering will be held at the Wigwam, on Oatena street, in the Sixth Ward, this (Friday) evening, at half-past seven o'clock. It will be addressed by Liqui. Gov. Kœnnen of Illinois, an eloquent speaker and outhusiastic Republican, and by L. BRENTANO, Esq., of Chicago. Let our Republican friends turn out, in their strength, to welcome and listen to these distinguished champions of the Republican cause from our sister State.

Legislative Nominations.

Our Republican friends in Milwaukee County, as in other parts of the State, should lose no time in making their nominations | Sardinia. No doubt, all of these will speedfor Senstors and Assemblymen. Our tickets ought to be all complete by next week, and served as the residence of the Pope-isolated. every candidate at work, not for himself, but for THE CAUSE. This Institution for the education for the deaf mutes within our State, between the Arrival and Departure of Mailroad Trains, and ages of ten and thirty years, is located at Delayan, in Walworth County, on the lin of the Recine & Mississippi Railroad. It i supported by the munificence of the State and all its inmates r ceive a gratuitous edu cation. The buildings were commenced i the summer of 1854, and have gone so fa that the main or central edifice was finishe in the fall of 1859, and that only two mer wings have to be added to complete th plan. Orrtoun, is in every way accomplished for the position, and his many previous years of experience with the dest and damb in other lustitations, has enabled him to bring the school forward with commendable success. It has at different times been visited by the chief exsculive of the State, and committees of the Legislature, who have expressed their actisfaction with its arrangement, government and success. My visit was agreeable and fraught with feelings of the deepest interest, and surely the State should be proud of this monument of disinterested munificence.

A VISITOR. THE KINGDOM OF TRACE.-The editor of the Philadelphia Press declares that before the "ides of March" have arrived. Victor EMANUEL must and will be master of Italy. The Grand Duchies of Tuscany, Modena, and Parms-each a sovereignty in itselfthe Vice-Royalty of Lombardy, the Kingdom of the Two Sicilies, and a greater portion of the States of the Church, already belong to what, eighteen months ago was the petty Kingdom of Sardinia. Rome, Ancona, Viterbo, and Civita Vecchia were the only places in the Papal dominions which, at the last advices, had not actually fallen into the poesession of the King of ily fall. Rome, it is possible, may be prewith a small surrounding country, like our scarcely be done, if the Pope should aban-

It is special pains should be taken to put up our strongest and best men. The State needs their services, and the Republican cause their influence. Att minor local, or personal considerations, should be merged in the one paramount purpose, to swell the popular majority for the Republican it is provided and increase the Republican strength in the Legislature and Congress.—
Let our friends address themselves especially to this task, during the three weeks yet to intervene before the election, and the end will crown the work.

RAIN.—A very copious fall of rain was experienced in this risidnity on Saturday afternoon, a gentleman and Sunday last, wetting the ground to the depth of several inches, and thoroughly saturating the low lends. We are glad to see that such of our farmers as have been able to procure seed, have taken advantage of this rain to put in their fall wheat. Althor late, hopes are entertained of a good crop.—
The weather coutinues warm, with indications of more rain, which is very favorable. Late grass is also coming forward finely, affording feed for stock, which is very timely, as many anticipated a necessity for early feeding, in addition to other calamities of the season.—State Record, (Topeka) Oct. 6.

He will re-each the part of Enutrs, and with his dagger he will strike the rail splitter a bloody blow that will send him straight to Julius Cosar. This tremendous instrument Potter will take with him to Washington, and, standing with it by the Mashington, and, standing with him to Washington, and, standing with it by the side of 'Old Abe' on the 4th of March, should Pryor step forward to fulfill his bloody warning, Potter, uplifting his mighty weapon, will bring it down like lightning upon the head of Pryor, and cleare him at a single blow into two equal parts, even as 'Old Abe' would divids a log in the act of making rails.''

AFFECTING SCENE.-The notice we pubished yesterday of the body of a woman found at Amsterdam, was sent to this office with a small bundle containing a pair of galters, a portmounale and portions of a dress. Yesterday afternoon, a gentleman and two ladies visited our office, to make some enquiries in regard to the description which appeared in the paper. There was little in it to prove satisfactory, and they were about to go away, when the little bundle was baserved. Then followed one of those scenes which of late have been so frequent in this city. A couple of torn and soiled gaiters and a few shreds of a dress, told the sad story, and were all that remained of a once loved

Cooking Stoves .- A good cooking stove is a good thing; but really good cooking stores are not numerous. Goodnica & Jourson assure us that Jewerr & Roor's improvement on the Stawart cooking stove constitutes the best in the market. They have a number of this patent on hand, the? they will not have them long. In several justances they have put them up side by wide with other stoves, for a trial, the contest always resulting in the old stove being discarded and the new adopted. This new improvement is worth evamining.

The task of explaining away an unlooked for and disasterous defeat, is one of the least days issue, it addressed itself to the work. We cannot felicitate it upon the manner, or restler of its explaination. Indeed the fact is too patent to admit of any glossing over. But let us hear what the News says:

In 1855, our majority over the Republican candidate for Governor in Pennsylvania was less than 5,000, and in the month following Buchishae's majority over Fremost was 56,600. Since the full campaign opened, the States O VERMONT, MAINE, FLORIDA, OHIO, PENN-SYLVARIA, and INDIANA, have held elections, clearly indicative of their Presidential preferences, and with the following significant results:

Florida 1,500 Breckinridge maj. There is no reasonable doubt that the maorities for Lincoln and Hantin in each and all of the first five States, will be conside**rably larger in November than those** given above. The tide of Republican enthusiasm is rising fast and far, and will sweep everything before it next month.

The State Treasury Finsh-Who was Right?

Madison, Oct. 10, 160. EDITOR SENTINGL: - Your readers will remember that at the Albeny Hall meeting last Fall, when Gov. RANDALL and H. C. Hobert met the people, the latter insisted that the State tax of \$150,000 was a cheat of the Republicans, levied low for effect, and that the fiscal year would close with a large deficit, some \$200,000, if I remember his statement correctly. He was fortified with a certificate from Secretary of State Jones, to the same purport; and he went through the canvass with like statement and certifi cate. Pump CARPENTER, through the canwas, made the anticipated deficit a great deal larger. Gov. RANDALL met figures with figures, and prophecy with prophecy. He Insisted that if the Republicans should sucesed and thus be able to carry out their policy, there would be a surplus of some \$40,000 in the Treasury at the end of the

FRILOW CITIZENS:—This is a free country, and every man, however humble, can vote according to the dictates of his own vote according to the dictates of his own conscious; certainly in the State of New York You need not be told that the Irish Union Wide-Awakes, during the Republican torel-light procession in this city. September 11th, were greated with insult for daring thus to vindicate their political preferences.

Friends, why is it that becoming Republicans so excites your hostility? Let us reason together and we will convince you that son together and we will convince you that were we to support Stephen A. Douglas, we should not against our best interests, against the rights of free laboring white men, as well as against true Democracy. We have changed our name but not our principles, and we feel confident, that if you correctly understood the principles of the Democratic party as expounded by Douglas, and of the flep publican party as expounded by Abraham Lincoln, you would, with us, use every honorable means to secure the election of the orable means to secure the election of the latter. Believing this, we will give you some of the reasons which have led us to abundon the Democratic party. Threeques tions are to be decided by the American people on the 6th of November next, very dif-ferent as to their importance to laboring men, yet neither of them so insignificant as not to deserve a fair and candid consideration by

every voter.

1st. The financial management of the National Government. It is true we live in a laud happy beyond all others, and we do not suffer greatly from taxation; yet almost every imported article consumed by us, (as every imported article consumed by us, (as tea 20 per cent, codies 20 per cent, sugar 36 per cent, kod.) is indirectly taxed to pay the present enormous expenses of the government; and if we consider the matter, we shall see that it is quite material to every laboring man, whether the annual expenses of the General Government are fifty million or one hundred million dollars, for in the end the burthen must fall upon the people. Now in perfect peace it costs the sham democracy one hundred million dollars a year to rule us, so that every voter is is indirectly taxed 820 a year to support the present corrupt Administration. There is a man out West who will govern us far better for about half that sum, who proposes to retrench, to stop feand and corruption, and to expel from Court those who have thus shamelessly plundered the public treasury. Therefore we shall vote for Abraham Lincoln.

The official statement of the condition of the Treasury Oct. 1, '60, is just made, and the balance to the oredit of the General Fund in the Treasury is just \$39.045.461!1

So much for Republican rule and economy in the management of our State affairs.

Appointment or Cincout Jedge.—Hon.

B. N. Feller, Judge of the Sth Circuit, has resigned his seat on the bench. His term expires in Jenuary, 1861, and his successor has been elected. For the interim, Gov. Randall has, at the instance of numerous attorneys and leading citizens of the circuit, appointed Hon. Henry D. Barren, of Pepin, who will at once enter upon the discharge of his duties.

This is an excellent selection. Judge EARRON is a gentleman of character and capacity, and will do honor to the bench, as well as to Gov. RANDALL's judgment.

Minturs

A case somewhat similar came under my own knowledge. In 1835 a youth resided in a small town in London county, Virginia who was a bar-keeper of a tavern; he became a confirmed gambler. He sat off one day on horseback on a traveling tour, with a person whom he knew to have in his poression a large sum of money, and before he person with the knew to have in his posessision a large sum of money, and before he started, armed bindelf secretly with a pistol, at the muzzle of which a small dagger was attached. On Saturday night they arrived at Centerville, in Fairfax county. After support they left the house, and in a short time the young man returned without his companion. When the landford asked for him the answer was all the late to the companion. him, the answer was, "Am I his keeper ?" the ominous reply of the first murderer! About daylight next morning he was seen

perhaps a field where the corpse was seen crossing a field where the corpse was found perhaps a day or two sterward. He returned to his residence on Saturday, and I conversed with him within thirty hours after his hands were reaking with blood; has seemed gay and cheerful as ever.

He was alrested on suspicion, and in his tronk was found to him the characteristics. trank was found the pistol, which, to the naked eye, displayed no marks of blood — When, however, the microscop: was applied it was clearly visible, and also a very small portion of one of the hairs of the dead man's whishers, which was not red color. He was taken off, accompanied by a lawyer, who was unsurpassed in physical and moral courage by any other man I ever knew. When they arrived at Genterville, the ex-citament was tremendous. All were clear that he was guilty; some said that if the accused would touch the corpse it would bleed. On hearing this prognostication, his counsel compelled him to come up stairs and touch the cold body, in order to do away the suspicion. He now appealed to the court in eloquent terms that his client was imposent because helped is not been a free was interest.

was innocent, because no blood issued from either of the eighteen wounds.

Long a ter this his trial came on at the country town of Halifan, before Judge Dads and an impartial jury of his own selection. The testimony was entirely circumstantial and indirect. But when the different links of and incir.ct. But when the different links of the chain were put together, it jointed with fatal certainty to the prisoner. The microscope helped greatly in tightening the rope around his neck.

The little fraction of a hair, mixed with blood, connected with some of the identified money of the desceased, and other circumstances not now recollected, brought the guitty youth to the gallows. Afterward it appeared that the murdered man lay on the

SALTING CREAM FOR BUTTER MARRING, - 2 writer in the Home lead reports a statement made at the New Haren lectures, that by adding name at the New MATCH fectures, that by adding a midespoonful of fine salt to a quart of cream, as the latter is skimmed from off the milk and slabtreet, over tandout's. placed in the cream pots until enough accumulates for churning, the time required for churning is reduced to two or three minutes. In a trial made by the writer, he found this to be true, and his theory is, that the self acts upon the thin coating of the glibules of butter, and so dissolves it that a slight agistion breaks it, and the butter comes at once. The experiment

can easily be tried by any butter-maker. WORKING BUTTER. - Mrs. E. RAILW AV MATTERS.

The new freight cars of the Milwaukes. Watertown & Baraboo Valley Railroad are certainly the neatest and most substantial of any cars used in Wisconsin. We do not know where the credit of their manufac ture belongs. In fact everything about the rolling steek of this road has an alr of substantial mad nee that speaks well for its managers. The road is now duing a large freight business, and when completed to its final destination—the Mississippi river at Da bugge-it is surely destined to become one of the very best paying Hallroads in the North-West,

MIL. & MASS, RAILROAD, Agreeably with the re-organization plan of the credtrare of the Mitwaukee & Mississipul Ruitrand, a decres of foreelesure, under the 1st morigage, has been ten dered in the District Court of Wisconsin. This was assented to by the city of Milwaukee, so that the only remaining obstatle to a harmonious re-organization f the concern is removed.
